## Experience:

### Decrypton Private Limited

Full Stack Developer Remote

Lucknow, India

Dec 2022 July 2023

Developed web application using Next.js, React.js and MongoDB. Implemented functionalities and REST APIs for the web application using Node.js and Express.js. Implemented authentication and authorization using JWT. Implemented payment gateway using Stripe.

### Codeforece, Codechef, Leetcode

Competitive Programmer

OCT 2023 Running

Regularly solve algorithmic challenges on platforms such as Codeforces, CodeChef, and LeetCode. Gained proficiency in: Data structures and algorithms, including dynamic programming, graph theory, greedy algorithms, etc. Problem-solving under constraints, optimizing for both time and space complexity. Achieved 929 (max) rating on Codeforces, 2 Star rating on CodeChef, solved 100 problems on LeetCode. Participated in contests such as Codeforces, CodeChef.

## Skills:

- **Language :** HTML, CSS, JavaScript, TypeScript, C, C++, Python
- **Frameworks :** Next.js, Express.js, Tailwind CSS, Bootstarp
- **Libraries :** React.js, TanStack Query, useSWR, Stripe, Socket.io, Redux, Zustand, Material-ui, Daisy-ui, Shadcn-ui, zod
- **Tools :** Prisma ORM, Firebase, Figma, MongoDB, Postman, JWT, Vercel, Netlify
- **Version Control :** Git, Github
- **Topics :** SSR, DOM, Authentication, Authorization, Error Handling, Problem Solving, Open Source Contribution

## Projects:

### Gym Management System - [Live](#) | [Github](#)

The Gym Management System is a web application designed to facilitate the management of a fitness center or gym. It provides various features for different user roles including administrators, trainers, and students. Attendance, payment, and workout tracking are some of the features available to users. Stripe is used for payment processing.

**Technologies:** Next.js, TypeScript, Prisma ORM, React-hook-form, Zustand, Stripe, Next-auth, MongoDB, Material-UI, Cloudinary

### RecipeHub - [Live](#) | [Github](#)

RecipeHub is a community-driven platform for sharing and discovering recipes. Users can create profiles, post dishes, explore recipes, and interact through ratings and reviews, all within a clean, seamless interface.

**Technologies:** Next.js, Nodejs, Typescript, Reactjs, Auth0, Tailwind CSS, Shadcn-ui, Supabase, Supabase-storage, Prisma ORM, Shadcn-ui

### Online Hut - [Live](#) | [Github](#)

The website includes an intuitive admin panel, allowing easy management of the platform's content and functionality. It serves as a robust online platform for selling products. Private Project)

**Technologies:** Next.js, TypeScript, Prisma ORM, Next-auth, MongoDB, Shadcn-ui, Uploadthing, Server component

## Education:

### BGC Trust University Bangladesh

B. Sc in CSE  
2024-running

### National University

Bachelor of English  
2022-2024

### Gachhbaria Gov't Collage

Intermediate of Science  
2019-2021

## Languages:

English : Fluent , Bangla : Native
